

Dolton C of E Curriculum Update 16.12.24

This term in **Lions Class** our Key Stage Two children have been exploring invasion games. In the first half term we practiced skills and learnt the rules of tag rugby including passing, tagging and how the game is played. This half term Lions class have been developing their skills in hockey; including how to hold the stick, passing, tackling, dribbling and shooting.

Physical Education at Dolton...

Our activity for this half term has been dance for KS1 and hockey for KS2. Children have been challenged to develop their skills, have an understanding of movement and how physical activity can keep us fit and healthy. Children also complete daily physical activity every day during break and lunch where KS2 children lead the rest of the school in a series of activities.

In **Tigers Class** our Key Stage One and EY children have been exploring dance. We have linked this with our Seasons work in Science. Each week has been a new style of dance. We have been ice dancers and danced on the beach. The children have enjoyed learning new skills with turns and movement from low to high including jumps.

We have danced in unison and used the cannon effect in our beach dance when pretending to be the sea. Tigers have been joined by Little Otters for some of our sessions promoting transition and collaboration across our EYFS settings.

After Christmas, KS2 will be moving onto dance, which will be linked to our history focus of the Romans. KS1 and EY children are moving onto football. Please can we ensure that children come to school with appropriate sports kit to get changed into during the day.
